Robomow Service Plans 2012

Our Robomow Service Plans come in three different forms but can be tailored to meet your individual requirements.

Plan 1 - Single Service Call

Plan 2 - Basic Service Plan

Plan 3 - Premium Service Plan

The Single Service Call

This plan covers all single visits to your Robomow whether the machine has a problem or you just want to have it checked over. Prices are in the chart below.

The Basic Service Plan

The Basic Service Plan consists of two visits, the first in the spring and the second at the end of the grass cutting season. See below for schedule.

The Premium Service Plan

The Premium Plan covers both calls as in the basic plan plus an additional 3 visits during the season.

Parts and materials are not included in the plans, but there are discounts on some basic accessories included in the Basic & Premium Service plans.

Spring Visit:

Your Robomow will be checked over to make sure it is working correctly. The perimeter wire will be checked for breaks and adjusted if necessary. The machine will be programmed to your requirements and we will ensure your robomow is working correctly before we leave.

End of Season Visit:

Your Robomow will be cleaned and correctly stored away for the winter months.

<u>Service Call Prices 2012</u>		<u>Prices include vat @ 20%</u>
